

Image prices include image retouching. Our reputation has been made on our exceptional image quality. Therefore, we cannot allow any images to leave our studio without having retouching done. Every image is retouched to the same art gallery standard as all of our exceptional award winning prints.

Low Resolution Digital Images on CD:

For those wishing to use the images for internet web site or e-mail use, we will produce your image at approximately 400 x 600 pixels (600x900 also available). Each image will be bordered with the Editions by Frederick copyright information. The use of the digital images is for personal internet use only and does not grant the user permission to make prints from these images as the image copyright is retained by Editions by Frederick. Copyright information must be maintained on the images.

NOTE: Due to the extremely low cost of our photo sessions, we cannot sell single digital images. Images must be purchased in one of the groups below.

400 x 600 pixels group of five \$65.00@ image

Our web site info (bottom) is subtle and barely visible on most images.

High Resolution Digital Images on CD:

For those who need high resolution images to make prints, use in publications or brochures or for any purpose where a high quality digital file is required. These images are licensed for individual company or personal use and the fee charged constitutes a licence and release to the client to do with the images as they please. These images are royalty free to the purchaser and may be used to make as many prints as the licensee desires. Sized as per print sizes at 300 ppi. We will provide a written document detailing the images and providing a legal release to ensure that there will be no reproduction or copyright issues. These images are priced at three times the equivalent print cost. So for an image that is 4"x6" at 300ppi, the cost would be three times the price of a 4"x6" photo print.

NEW!

You've bought an album and want digital images also?
